

Sauk Valley Association of REALTORS® member MLS Survey

Fellow members,

Our current contract with Technology Concepts (Ultrex & My Place) expires in **November 2009**. In an effort to make sure we are using the latest MLS technology, the MLS committee has started a search of other possible MLS solutions. This **DOES NOT** mean we are switching, we just want to make sure that we are using the best tools available for our businesses. A small task force will be formed to travel to DeKalb for 4 vendor presentations. If you want to be on the task force let me know ASAP. It **WILL** involve travel and a commitment to make **ALL** 4 of the presentations. Dates are 10/14, 10/21, 10/28 and 11/17 or 18.

Please take the time to fill out this questionnaire and return to Jane at the Association office either in person or fax 815-626-4026. Deadline for these questionnaires is 9/15/2008. Your input is important to us and will help the task force and committee to get your ideas.

Thanks.

Brian Corwell
Chair MLS Committee

Thanks for taking the time to fill this survey out. Your input is very valuable to the committee. If you need additional space please use a separate page and attach. We would prefer them to be dropped off as they are easier to read over a faxed copy. Please get to the Association office no later than 09/15/2008.

Name: _____ Office: _____

e-mail address: _____ Contact # _____

1. What features do you like about Ultrex (the desktop version)? _____

2. What features do you dislike about Ultrex (the desktop version)? _____

3. Do you use the MyPlace (the online version) YES or NO ?

4. If Yes what features do you like or dislike about it? _____

5. Do you prefer an on-line version, desktop version, or a combination? _____

6. Is it important to you to have data from other areas such as DeKalb, Rochelle or any other city in the area? _____

7. What other areas would you like to see data from? _____

8. Would you like mapping capabilities? (the ability to have the system map out directions when showing more than 1 house) _____

9. Would you like the ability to be able to scan disclosures and other documents and have them stored on a secure server so agents can pull things like the disclosure when writing an offer after hours or on weekends? (you would need a scanner to participate in this)

10. Any additional comments or feedback: _____
